The Dissolution

STILL CONTINUES!

The question that has been asked us so often in the past few days is, "Are you really going out of business, or are you just doing like so many others—trying to reduce your stock at this, the dullest season of the year?" Those who have been in and learned the prices that we are making on our fine goods they have no doubts. You who have not been in, and who do not avail yourselves of the benefits of this, the greatest sacrifice sale ever made in this city, will be the losers. We state most positively that LEE & BALLENGER are going out of business, and are selling their entire stock of

And Men's Furnishings of every kind—Shirts, Underwear, Hats, Caps. Our line of fine Stiff Hats we believe to be one of the best stock in the state. All of these goods will be offered and sold at less than hall their real value. This sale will continue until the whole stock is sold out and the business of the firm settled up. It will pay you to see these goods for present or future use. You will surely never again get them so cheap. It we were going to continue in business we would not think of selling these goods at the prices they are going for. We ask you to come in and see the difference between a genuine closing-out-to-quit-business sale and the fakes that are so frequently advertised. In twenty years in business in this city we have never advertised anything that we did not do. We stand upon our record. This sale is the real thing—closing out dissolution to retire from business at prices never before equaled and perhaps never will be again. You can't afford to miss it. Respectfully,
